

**Artificial Penetration No. 583**

Gulf Production  
Kishi-Lang "A" #6

FORM 1. 52009  
RAILROAD COMMISSION OF TEXAS—OIL AND GAS DIVISION

Austin, Texas

IMPORTANT NOTICE: This is the first record the Railroad Commission has of any well. It is made the basis of all subsequent correspondence. Hence it must be accurate.

NOTIFICATION OF INTENTION TO DRILL, ~~DEEPEN, PLUG OR SHOOT~~

(To comply with Orders of the Railroad Commission of Texas governing Oil and Gas Operations in Texas.)

DESCRIPTION OF PROPERTY:

In order that the well covered by this notice may be definitely and accurately located on maps in the office of the Commission, draw in the space below, in ink a sketch of the lease or block and lot, giving name and number, and indicate thereon the exact location of the well. Also show the distance, in feet, of the well from the two nearest boundaries of the lease and from the nearest well. Give names of the adjoining lease or property owners.

Scale: 400 feet to 1 inch. If less than 2 acres, 40 feet to 1 inch.

Use back hereof for sketch if necessary.

NORTH.

This notice must be delivered to Deputy Supervisor or to the Railroad Commission as prescribed by Rules 9, 10 and 23, before drilling, deepening, plugging or shooting, so that the Commission may, if it desires, have a representative present.

Rule 37. No well for oil or gas shall hereafter be commenced nearer than three hundred (300) feet to any other completed or drilling well on the same or adjoining tract or farm; and no well shall be drilled nearer than one hundred and fifty (150) feet to any property line; provided, that the Commission, in order to prevent waste or to protect vested rights, will grant exceptions permitting drilling within shorter distances than as above prescribed, upon application filed fully stating the facts, notice thereof having first been given to all adjacent leasees affected thereby. Rule 37 shall not for the present be enforced within the proven oil fields of the Gulf Coast.

Give notice before Plugging to all available Lease Owners as required by Subdivision (C) Rule (10).  
When Plugging completed, file final Plugging Report, duly signed and sworn to. All necessary forms  
will be furnished by Commission or Deputy Supervisors.

NOTE: If no log available, so state and give all information that can be obtained as to total depth, casing record, whether or  
not cemented, producing formation, water sands, and as near as possible date well was drilled.

General Remarks:

**NOT ALL FORMATIONS ESPECIALLY ALL SANDS AND CHARACTERS AND CONTENTS THE SAME**

**County, Texas**

# RAILROAD COMMISSION OF TEXAS

**RULE 10. Plugging Dry and Abandoned Wells.**—(a) All abandoned oil, gas or water wells shall immediately be plugged according to the following rules: (1) **Method of Plugging.**—All dry or abandoned wells shall be plugged by sanding off all oil, gas or water to the stream to which they came by such plugging. In addition to sand holes, cement and plugs may be used when so directed. (2) **Notice of Intention to Plug.**—Before plugging dry and abandoned wells, notice shall be given to the Railroad Commission of Texas or its representative agent in the field, and to all available adjoining lease and property owners, and representatives of such lease and property owners may, in addition to the oil and gas conservation agent of the Commission, be present to witness the plugging of these wells if they so desire, but plugging shall not be delayed because of inability to deliver notice to adjoining lease or property owners. (Rule 10 amended November 12, 1911.) (3) **Form and Plugging Record.**—The owner or operator shall, upon the completion of any well, file with the Railroad Commission of Texas a complete record of the same, duly signed and sworn to, upon blanks to be furnished by the Commission upon application; and upon plugging any well for any cause whatsoever, a complete record of the plugging thereof shall be made out and duly verified as herein to be furnished by the Commission.

## PLUGGING RECORD

Company C. C. KECWN Address Orange, Texas  
 Sec. No.        Blk. No.        Survey J. Dyson County Orange  
 Well No. 6 Name of Lease Kishi Lang "A" Lease No. of Acres         
 Date well was plugged March 10, 1936  
 Character of Well (Whether it was Oil or Gas or Dry) Oil  
 Total depth 4117 feet. Top of each producing sand 4117 feet  
 Was the well filled with mud-laden fluid, according to regulations of the Railroad Commission? Yes  
 How was mud applied? Poured  
 Were plugs used? No If so, show all shoulders left for casing, depth of each, and size of casing, size and kind of plugs used, and depths placed. Also amount of cement and rock.
